

Doodson Family tree c.1568 to 1833

James of Kearsley

Family tree prepared by Mike Doodson, November 2007

From research done by Marjorie Pollard (who was descended from Margaret (b1807)) - information from wills of James (b1568), John (b ?) and Adam (b1650), the parish registers at Deane and Prestwich, plus additional data from the English censuses for 1841 and 1851 and the International Genealogical Index.

Note that male lines that do not continue could not be traced at time of research. It is possible that there were descendents either outside the UK or with different surnames (e.g. changed spelling)
